## Global Job Board ●●●

As an EFMD Full Member, the Career Services department of your institution has the opportunity to complement your existing Career Services' initiatives with the HigherED Global Job Board, used by more than 400 schools in the EFMD Global Network. With more than 10,000 global opportunities posted yearly, HigherED supports your students and alumni with internships, graduate programmes and full-time positions.

“HigherED has simplified the process of finding an international job opportunity for students. The platform has made their search journey a lot easier and faster.”

“It has been a great platform for our students and a great opportunity for us to increase awareness about the jobs outside of the United States for both our domestic students as well as our international students.”

“Just want to say thanks for creating this platform. This is what I am looking for! So many exciting careers globally!”

Student from

FACULTY OF  
BUSINESS &  
ECONOMICS

## Talent Resources

### Talent Assessment ●●

Highered offers talent the opportunity to take a personal assessment in order to prepare and gain a competitive advantage in the recruitment process. The personal assessment is powered by Cut-e (an Aon company) and provides a detailed report, supporting your students/alumni in the development and execution of a career strategy. In addition, talent will have a better understanding of how these types of tests are formatted and become more comfortable taking such assessments in a real world job interview situation.

They will be available soon!

### Highered Country Career Guides ●●

The Highered Country Career Guides digital resource is beneficial to both talent and Career Services. The Guides are user generated knowledge sources that detail country information, including topics such as work authorisation regulations, housing, banking, industry and employment trends, professional and networking organisations, business etiquette and interviewing protocol.
